

# StarMOBILE

Diagnostics in Motion...

## Trying to configure your StarMOBILE system for networking?

Given the complexity of configuring secure networks, we highly recommend that your *StarMOBILE* system network configuration be performed by your Systems Coordinator or internet service provider. The **StarMOBILE Configuration Guide** is created to assist in the network configuration of the *StarMOBILE* system. To view this guide, refer to **DealerCONNECT** or **dcctools.com**.

The screenshot shows the DealerCONNECT website interface. The main content area is titled "Diagnostic Tools for the Next Generation". It contains a list of training aids on the left and a main text area on the right. A red arrow points to a blue link in the "ATTENTION!" section that says "Click here to view the guide."

**General Training Aids**

- Info-Location
- Tutorial Controls
- Reset and Clear DTCs
- Create a Custom Display
- View and Graph Data
- Start an Actuator
- Run OBDII Identics
- Set Customer Preferences
- Run a System Test
- Run Miscellaneous Functions
- View Event Data
- View Freeze Frame Data

**StarSCAN Training Aids**

- Connecting Accessories
- Update Tool
- Setup Network
- Vehicle Flash

**Diagnostic Tools for the Next Generation**

Each of the tutorials listed on the left explains how to perform a single procedure with StarSCAN™ or StarMOBILE™. More tutorials will be added over time, so check back on a regular basis.

The tutorials have animations and voiceovers that explain each step. To hear the voiceovers, connect headphones or speakers to the TechnoCONNECT client. To get the most out of the tutorials, follow along with your scan tool. Using the controls, you can pause the tutorials or replay each step whenever you like.

In order to view the tutorials you will need the latest Macromedia Flash Player. If you have trouble viewing these files, select eSupport at the top of the screen then select Library > Downloads for more information.

**ATTENTION!**  
Configuring the networking capabilities on the StarMOBILE is a complex process that requires technical expertise of your Network Technician. **Thoroughly read the "StarMOBILE Configuration Guide" before attempting.** [Click here to view the guide.](#)
